EASA ATPL INTEGRATED

WHAT IS ATPL INTEGRATED?

The EASA ATPL Integrated Course grants its holder the highest & strongest level of pilot certification worldwide. By following a structured full-time course divided into carefully planned training stages, it's designed to take you from no previous experience in aviation all the way to the ATPL license in one go.

Gulf Air Academy Integrated ATPL Course is EASA approved & designed to give you the exact knowledge and expertise to meet the requirements of all the major airlines around the world. Once you finish this course, you will be ready to take a right seat in all the major airlines!

COURSE BENEFITS

By following a structured single course divided into carefully planned training stages, it's designed to take you from no previous experience in aviation all the way to the ATPL licence in one go.

In the shortest most affordable way possible.

Full Student Support

We have made it one of our priorities to provide our students with every detailed support they will need to settle down and build a future, yet still feel like home.

We will guide you from the first step of enrolment all the way until you obtain your ATPL!

The weather is one of the main factors influencing aviation training, and it rarely creates issues in Greece! Thanks to fantastic weather conditions, we schedule flights 340 days a year. This helps assure that they are on track and are not forced to delay flights due to bad weather.

THEORETICAL TRAINING

The Ground school of this course is 800 classroom hours, composed of the following syllabus and subjects:

- Air Law
- General Navigation
- Radio-navigation
- Meteorology
- Human Performance
- Communications
- KSA 100
- Operational Procedures
- Principles of Flight
- Aircraft Performance
- Flight Planning
- Mass & Balance
- Aircraft General Knowledge (Systems)
- Aircraft General Knowledge (Instrumentation)

Throughout your training, you will need to attend the 14 EASA ATPL theory examinations to prove a sufficient knowledge appropriate to the privileges of the holder of an ATPL(A) in accordance with the EASA requirements.

The exams will be conducted in the Hellenic Civil Aviation Authority.
